What is the Delaware County Community Support Program (CSP)

State, Regional and Delaware County CSP History

The discovery of psychotropic medications along with civil rights and social rights movements in the 1950's and 1960's led to the phenomenon known as deinstitutionalization. The philosophy was noble – Persons with mental illness should be treated and live in their communities and not institutions. However, communities were ill prepared to adequately treat this new community population. By the early 1970's the National Institute of Mental Health (NIMH) was receiving much criticism for its policies on deinstitutionalization and the failure of communities to have the resources necessary to provide adequate services and supports to persons with long-term mental illnesses.

The NIMH officially began to address the problems of deinstitutionalization and community based care in 1974. That year they formed an internal workgroup, the Community Support Work Group, which was charged with the task of designing and promoting the development of community based service systems for adults with long-term mental illness. The type of system envisioned by NIMH was one that would enable mentally ill persons to remain in the community and to function at optimal levels of independence.

This workgroup, spearheaded by Judy Clark-Turner, a staff at NIMH, set out on an investigatory process to find out what works best. They had an innovative approach to this investigation process – “Ask the member.” It was persons utilizing mental health services who reported that the psychosocial rehabilitation model/approach was what they found most helpful for long term recovery and community integration. From this strong feedback the workgroup then embraced the psychosocial rehabilitation model and philosophy, including clubhouse model, PACT model out of Wisconsin, Fairweather Lodge model out of Michigan and the Consumer Run Services model out of Philadelphia. Out of these model programs, the workgroup developed the CSP Principles & Values and the concept of a Community Support System.

By 1977, the results of the workgroup were officially presented and had developed into a special federal initiative – the birth of CSP had arrived. Since that time, the NIMH has adopted CSP principles and the concept of a “community support system” working to promote this philosophy and approach throughout the country. All 50 states, the District of Columbia and two territories have received Federal assistance to promote and support the formation of Community Support Program Committees.

Here in Pennsylvania, CSP began in 1984 with the formation of a state-wide CSP Advisory Committee to the State Office of Mental Health and Substance Abuse Services (OMHSAS). The CSP Advisory Committee was tasked with not only functioning as an advisory body to OMHSAS but also to spread CSP throughout the state. They did this by creating the 4 regional CSP committees (South East, North East, Central and Western) whose task was to promote the development of committees in all the counties in their region. OMHSAS promoted CSP by making adherence to CSP principles in the design and implementation of mental health services mandatory in their mental health contracts with each county in PA and by providing funding for CSP activities.

The State-Wide CSP Advisory Committee has continued to grow and develop over the years and now has become a 75-member strong Advisory/Planning Council, which continues to serve as an advisory body to the State Office of Mental Health ensuring the continued utilization of the CSP principles in the planning and development of community mental health services.

The 4 Regional CSP Committees (South East, North East, Central and Western) are still in existence and are made up of members of the local county CSP committees and provide support and information sharing to the local county committees. Delaware County CSP is part of the Southeast Regional CSP, which currently consists of Delaware, Montgomery, Philadelphia and Bucks Counties.

The Delaware County Community Support Program was established in 1989 via initial support of Bill Chambers of The Delaware County Office of Behavioral Health.

CSP Support System

The Office of Mental Health & Substance Abuse Services (OMHSAS) is largely responsible for supporting CSP in Pennsylvania. OMHSAS contracts with PMHCA to provide training and technical assistance support to CSP Regional Committees. Local CSPs (such as DELCO CSP) are funded and often technically supported by the State's Local County as well as the Regional CSP (such as Southeastern Pennsylvania Regional CSP).

Who is considered a Delaware County CSP Coalition Member?

Membership of the DELCO CSP Committee is an open participation membership which shall consist of any interested citizen in Delaware County. This coalition shall include individuals receiving Delaware County mental health services, family members, mental health providers and business professionals. All members and visitors are welcome and are encouraged to participate in all monthly scheduled DELCO CSP Meeting and Steering Committee Meeting discussions.

All members and visitors are entitled to one vote per person on DELCO CSP meeting agenda items.

Delaware County Community Support Program Goals

DELCO CSP welcomes persons utilizing mental health services, family members, mental health professionals and other interested citizens who want to help DELCO CSP reach its goals. The goals of DELCO CSP are to help persons with mental illness live successfully in the community.

Policy and Advocacy Issues: Throughout Pennsylvania, local CSP Committees are working to address crucial issues including, housing, education, legislation and human rights. It is vital to our DELCO CSP that all members discover common ground and form a working alliance. Yearly events are held including the Annual Advocacy Bus Trip to Harrisburg to meet with local Legislators as well

as an Advocacy Day Event led by Southeastern Pennsylvania Regional CSP in Norristown, PA.

Mental Health Awareness Events: Currently DELCO CSP is in the planning stages of four major events per year which unite interested members in the community. Self-declared DELCO CSP members are welcome to come out and celebrate the rich diversity of joys and triumphs as well as come together in finding solutions for the challenges of having a mental health illness. We celebrate with fantastic food, amazing music, making fabulous friendships with spectacular speakers and terrific topics of interest!

Educational Speakers: Several monthly DELCO CSP Meetings per our calendar year include educational speakers integrated into the agendas of our meeting formats. The goal is to provide a valuable learning experience of participation, enhancing the quality of your learning and developmental awareness of the extensive and varied Mental Health Services and Programs available in our own Delaware County.

Community Integration Education and Awareness: DELCO CSP outreaches at community events in Delaware County to spread the news of our services, goals and availability to help advocate changes and strengthen Mental Health Programs in our Communities. We also outreach at public events spreading the word with our marketing materials, word of mouth and community presence advertising.

Conference Scholarships: Although there have been no applicants for new scholarships, members are encouraged to reach out to DELCO CSP for scholarships under our newly available Fiscal Budget. A conference and/or educational scholarship policy is in the works and will be available soon!

Delaware County Seed Grants: If you have an idea for a Seed Grant, let us know for our newly available Fiscal Budget. A conference and/or educational scholarship policy and application are in the works and will be available soon!

EIGHT COMMUNITY SUPPORT PROGRAM PRINCIPLES

The CSP Principles were developed in 1977 by the National Institute for Mental Health (NIMH) workshop that investigated model programs around the country to identify best practices for fostering recovery among individuals with serious mental illness. There are Eight Principles developed upon which the Mental Health System should be based: These principles are at the core of CSP and guide the planning and evaluation for comprehensive and responsive systems of mental health services.

1. **Person Centered/ Person Empowered:** Services are based upon the needs of the individual and incorporate self-help and other approaches that allow peers to retain the greatest possible control over their own lives.
2. **Culturally competent:** Services are sensitive and responsive to racial, ethnic, religious and gender differences of peers and their families.
3. **Able to Meet Special Needs:** Services are designed to meet the needs of persons with behavioral health challenges who are also affected by such factors as age, substance use, physical illness and disability, developmental disability, homelessness or involvement with the criminal justice system.
4. **Community Based with Natural Supports:** Services are provided in the least cohesive manner and in the most natural settings possible. Peers are encouraged to use natural supports in the community and to integrate into the living, working, learning and leisure activities of the community.
5. **Flexible:** Services are designed to allow people to move in and out of the system and within the system as needed.
6. **Coordinated:** Treatment services and supports are coordinated on both the local system level and on an individual person basis in order to reduce fragmentation and to improve efficiency and effectiveness with service delivery. Coordination includes linkages with peers, families, advocates and professionals at every level of systems of care.

7. Accountable: Service providers are accountable to the users of services and include people and families in planning, development, implementation, and monitoring and evaluating services.

8. Strength Based: Services built upon the assets and strengths of peers and helping people maintain a sense of identity, self-esteem and dignity.

SECTION II: Holding a CSP Meeting

All DELCO CSP Members: who wish to have an item added to the Delco CSP Meeting Agenda may contact a co-chair who will notify the DELCO CSP Secretary.

DELCO CSP Meeting Agendas are: flexible and are developed individually, on a month to month basis to reflect the priorities of the Board Members (Co-chairs, Treasurer, Secretary, Minute Taker) and in addition, the County Liaison.

1. A "Motion": must be made by a CSP member for the item to be considered and discussed by all before a vote may take place.
2. A "Second the Motion": must be made by a CSP member before an item vote may take place.
3. "All in Favor/ All Opposed Votes": must be recorded in the DELCO CSP Monthly Meeting Minutes to reflect all decisions made by DELCO CSP, especially to support the funding requests of the DELCO CSP to our CSP Fiduciary.
